

About UTU PAC...

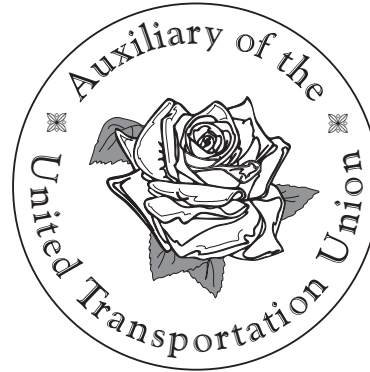

UTU PAC is the United Transportation Union's voluntary legislative and political action fund.

UTU PAC is one of the largest and most effective political action funds in organized labor, and has made great legislative and political accomplishments over the past few years, thanks primarily to the support of members.

Members of the Auxiliary support UTU's efforts to help its friends in Congress and state legislatures by donating some of their time and proceeds of fundraising efforts to this important cause.

Through UTU PAC, Auxiliary members work to help those lawmakers and candidates who recognize problems that affect railroad, bus and other transportation employees and their families, and who will work toward enacting laws that will protect UTU interests.

- UTU PAC contributes to qualified state and national political candidates, regardless of political affiliation.
- UTU PAC protects the interests of active and retired UTU and Auxiliary members and safeguards laws, working conditions and pension rights.
- UTU PAC is the largest political action committee among transportation operating unions.
- UTU PAC has well-organized advisory committees in 49 states and an office in Washington, D.C.
